- Funding from 231 grant and apportionment
- 2 students are from CalWorks
- 80 benchmarks met by students (HSDP achieved or increase of 2 points on assessment)

Career Center Services:

Homeless adults and Calworks clients received supplemental services including ongoing counseling and placement services as well as financial support for class materials, transportation, clothing, and other items necessary for success in school.

PARTNERSHIPS:

ABE / GED / AHSPD partners with Santa Clara University Arrupe Project. We place 10 – 12 university students each quarter. Most of the Arrupe students are used as direct Math tutors for both GED and HSD students.

We received a \$1,500.00 grant from the Mission City Community Fund to offset the cost of GED testing for low income Santa Clara City residents.

PROGRAM HIGHLIGHTS

We expanded our GED Prep to the afternoon time slot to better serve the community. By offering GED Prep in the afternoon, it allowed our HUD students to take more Voc Ed classes in the morning time slots.

RESULTS

- 49 students received GED
- 57 students completed high School diploma
- Total benchmarks = 210
