

Dear Adult Education Community,

There are many extraordinary changes that we have experienced in this past year in how we live, work, socialize and stay connected. Although our world has changed and our lives have become more restricted, I have witnessed a significant amount of growth in our school community.

As you read through this newsletter you will see the personal and professional development of the adult education students and staff. Here are some examples of growth this past year...

Learning Google Classroom, Google Meets, Zoom, breakout rooms, applications, online circle time, creating Youtube videos, problem-solving, collaboration, attending webinars, building activity kits, and connecting with students through outreach and phone calls. Holding virtual orientations; open houses; graduations, interviews; and social events. All while checking in with one another, having patience, flexibility, growth mindset, practicing self-care, learning new hobbies, and remembering the importance of family, friendship, community, and kindness.

Last spring we were successful in making short-term transitions to online learning. This spring we can celebrate continued success and the expansion of classes in distance learning platforms all while we look forward to safely reopening and returning to in-person learning.

Thank you for all your dedication and support.

Sincerely,

Carrie Casto  
Principal, Adult Education
