SILICON VALLEY POWER & SANTA CLARA ADULT EDUCATION PRESENT:

A Class Series Using Induction Cooktops

Santa Clara Adult Education is proud to partner with Silicon Valley Power for a series of cooking classes using induction cooktops. These classes are designed to help introduce the Santa Clara community to the value of induction cooking, which is not only fast and efficient, but also safe due to its lack of flames. In these classes, students will

use our new induction cooktops installed by Silicon Valley Power and learn how to make a variety of dishes. Together, Silicon Valley Power and Santa Clara Unified School District are committed to reducing greenhouse gas emissions, improving the environment, and supporting energy-efficient technologies.

HIGH SCHOOL EQUIVALENCY

What is a High School Equivalency (HSE)? In California, adults who left high school before graduation have another way to secure a high school equivalency credential. There are two HSE exams, the HiSET and the GED.

What does a HSE credential mean for me?

It means that, through testing, you can demonstrate you have the same skills and knowledge as a high school graduate. Once you pass the test, the California Department of Education will issue you a high school equivalency certificate.

We offer free classes to prepare you to pass one of the two exams, the HiSET and the GED.

Ready to get started on your path to a high school equivalency certificate? Contact our Transition Specialist at (408) 423-3500 or email us at santaclaraae@scusd.net to get started.

Do you offer the official HSE exams?

We offer the official HiSET exam and paper. We can provide you with information about other locations for the GED exam. Financial aid may be available for the HiSET exam. Please see your instructor for more information.

What is the schedule?

Wilson Preschool is a parent participation and parent education preschool where parents and children learn together. We use a developmentally-appropriate curriculum based on the HighScope model where children learn through hands-on experiences and active play. We respect and celebrate our families' diversity and provide a safe and nurturing environment. Parents actively participate in their children's classrooms once a week. Through their participation, parents learn ways to foster their children's social, emotional, physical, intellectual and creative development.
